Crochet Magic Ring – Courtesy Andrea Sanchez on 05 September 2013

STEP 1: Lay the yarn tail from left to right across the top of your index finger, then loop the yarn once around four fingers, laying the working yarn, (the yarn that is closest to your skein of yarn) behind the yarn tail. The working yarn will fall to the right & the tail will fall to the left.

STEP 2: Loosen the loop from your fingers carefully, keeping the working yarn behind the yarn tail. (You can also pinch the loop with your fingers where the two yarns cross if you find that easier). Use the crochet hook to pull up a loop from the working yarn.

STEP 3: Chain one stitch.

STEP 4: Work your single crochet in the ring around the ring and tail yarn. Single crochet the desired number of stitches.

STEP 5: Pull tail yarn to cinch ring closed.

STEP 6: Slip stitch into the first stitch to join round.

Notes: *Be aware when using this technique, not all yarn will compress densely. Also, if you are using a large number of stitches in the first round, that might leave a small hole.*

When using this technique, the yarn tail MUST be woven in SECURELY, otherwise the Magic Ring could become loose & unravel.
